People

David Tomanek - Founding Member and Senior Technical Advisor

Professor David Tomanek studied Physics in Switzerland and received his Ph.D. from the Free University in Berlin. While holding a position as Assistant Professor of Physics, he pioneered theoretical research in Nanostructures at the AT&T Bell Laboratories and the University of California at Berkeley. He established the field of Computational Nanotechnology at Michigan State University, where he holds a position as Full Professor of Physics. His scientific expertise lies in the development and application of numerical techniques for structural, electronic and optical properties of surfaces, low-dimensional systems and nanostructures.

Dr. Tomanek is currently serving as a senior technical advisor for NanoTEN, Inc and was a founding member of the company., his invaluable knowledge and experince has helped to make our corporation the sucessful and cutting edge nanotechnology business that it is today.

Evangelyn Alocilja - Senior Technical Consultant

Professor Evangelyn Alocilja studied Chemistry in the Philippines and received her Ph.D. in Systems Science and Electrical Engineering from Michigan State University in 1987. She is currently a associate professor with tenure in Biosystems Engineering, Department of Biosystems and Agricultural Engineering at Michigan State University. She is also a member of Sigma Xi; The Scientific Research Society; Phi Beta Delta; The Honor Society of International Scholars; American Association for the Advancement of Science; The Society of Engineering in Agricultural, Food, and Biological Systems; Institute of Biological Engineering; American Society of Engineering Education; Institute of Electrical and Electronics Engineers.

Dr. Alocija is also currently serving as a senior technical consultant for NanoTEN, Inc., her current research is a main focus of the corporation and will help create a safer world for us all.
